

Pay Practices Manager

In an ongoing effort to recruit, retain and engage the best talent while also supporting evolving business strategies, base compensation is only the beginning. Understanding the latest trends in health care pay practices – such as incentives, value-based compensation, call pay and more – is critical for organizations to consider when looking to design highly effective and competitive compensation programs.

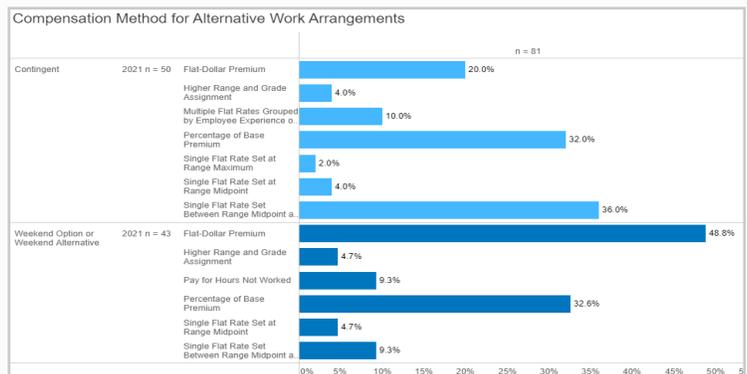

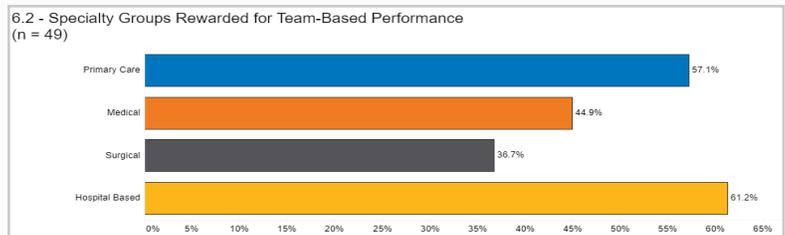

Through industry-leading data, analyses and reporting, **Benchmarks360™ Pay Practices Manager** allows you to compare your organization’s specific pay practices and compensation design elements to industry benchmarks.

Compare your organization’s specific pay practices and compensation design elements to many of the nation’s leading hospitals, health systems and medical groups. This module provides unique benchmarks that are often difficult to find and covers the entire health care workforce – including executives, physicians, advanced practice providers and other staff positions.

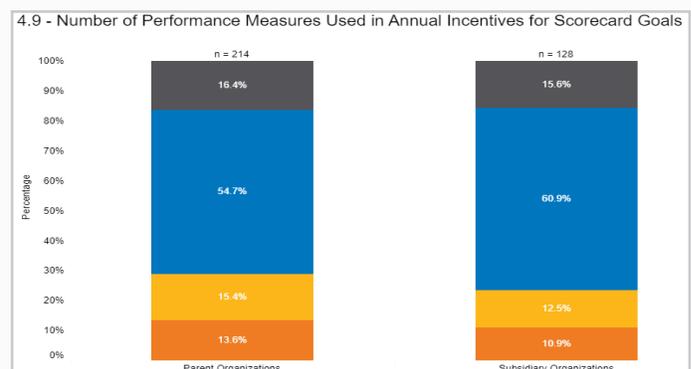

Difficult to Find Benchmarks

Gain market insights on unique pay practices such as on-call pay, shift differentials, paid time off, sign-on and retention bonuses and much more – to help inform the design of your competitive compensation programs.

Custom Analysis

View and analyze relevant benchmarking data tailored to your organization’s characteristics (e.g., academic, pediatric, geographic).

Data-Driven Insights to Inform Total Rewards Strategies

Pay Practices Manager comes in both a Standard (included with your SullivanCotter survey purchase*) and a Pro version (upgrade through Clinician Nexus for an additional licensing fee).
