

STUDENT MANAGEMENT

Simplify Communication and Data Management

Centralize clinical education workflows and communication to streamline daily operations and improve overall coordination.

Strengthen connections with your future clinical workforce. We know strong relationships with your future clinical workforce is essential, but it's challenging without the right tools. Our innovative cloud-based software solution simplifies this process by centralizing all communications and workflows in one secure system.

Easily collect private data and documentation, enable seamless in-app communication between stakeholders, send bulk emails, and receive automatic alerts for critical updates—all in a single, user-friendly environment. With everything in one place, your team can focus less on logistics and more on cultivating meaningful partnerships.

Key Features and Benefits

- **Collect sensitive data** and documentation in a secure location and enable appropriate access control with single sign-on
- **Empower students, preceptors, and administrators** to connect and engage with in-app communication tools
- **Send bulk emails** regarding student rotations to a variety of stakeholders
- **Notify students** of key dates and deadlines through automatic alerts
- **Enable easy access** for staff with single-sign on capabilities

Value for Stakeholders

- **Eliminate outdated processes** by centralizing data and workflows into one system
- Maintain **appropriate levels of access** to sensitive documentation, especially in the event of turnover, with single sign-on capabilities
- Effectively **gather and manage student data** and contact information to keep track of future talent

Build, reward, manage and retain your clinical workforce.

Clinician Nexus provides a platform that enables health systems to build a high-quality clinical workforce through transparency and insight into productivity, clinical practice management, and clinical learning.
