

STUDENT MANAGEMENT

Compliance Management and Risk Mitigation

Effectively manage compliance and reduce risks tied to student participation or observation in direct patient care settings.

As students advance and begin participating in direct patient care, it's essential to uphold strict legal, ethical, and safety standards. Automating onboarding requirements and managing necessary documentation through a centralized system helps mitigate risk, ensuring that only properly prepared and qualified students are placed in appropriate clinical settings. This not only supports compliance but also safeguards patients, students, and your organization.

Key Features and Benefits

- **Affiliation Agreements:** Create and establish with educational partners to streamline the student placement process
- **Automated Onboarding Requirements:** Achieve program-wide compliance by ensuring that students, instructors, and faculty across all disciplines meet required standards through one unified process
- **Streamlined Approval Process:** Simplify the collection, management, and approval of student documentation
- **Real-Time Reporting:** Ensure audit readiness by generating and exporting reports in real-time to satisfy all regulatory and organizational requirements
- **Proactive Notifications:** Avoid lapses in compliance with automated alerts that notify you of upcoming expirations and required renewals

Value for Stakeholders

- **Save valuable time** with the right tools, data, and documentation at your fingertips
- Our software serves as a **single source of truth for all student documentation tied to direct patient care participation or observation including:**
 - Background Checks
 - Drug Screenings
 - Immunizations
 - Liability Insurance
 - Certifications
 - Licensure
 - Organizational Policies

Build, reward, manage and retain your clinical workforce.

Clinician Nexus provides a platform that enables health systems to build a high-quality clinical workforce through transparency and insight into productivity, clinical practice management, and clinical learning.
