

STUDENT MANAGEMENT

Connecting with the Future Workforce

Build a sustainable pipeline of future clinicians.

Streamline your talent acquisition efforts and elevate your recruitment strategy by posting clinical opportunities and efficiently managing your community pipeline. Our solution enhances visibility, particularly for rural health rotations, and helps identify high-potential candidates through evaluations. Track students seamlessly from job shadowing through to their final rotation, creating a clear pathway from learner to long-term team member. This proactive approach to workforce management saves valuable time and resources while helping you attract and retain top talent.

Key Features and Benefits

- **Extend Your Reach:** Broaden your candidate pool through our national **Rotation Marketplace**—a solution where students can discover and apply for available clinical rotations
- **Identify Top Talent:** Use evaluations to confirm candidate quality and fit for your organization
- **Collect Student Information:** Centralize student interest, demographics, and contact information to support targeted recruitment efforts and improve communication across your team
- **Track Student Engagement:** Monitor ongoing student interactions and activities at clinical sites to gain a comprehensive understanding of their experience with your organization

Value for Stakeholders

- Assess **clinical capacity** by **identifying clinical sites** with the most pressing hiring needs through **data-driven insights**.
- Build a talent pipeline through **strategically placing students in high-need** areas to cultivate a **sustainable workforce pipeline**
- Enhance **retention strategies** to develop targeted approaches to **retain students as they transition into full-time roles**; strengthening your long-term staffing efforts.

Build, reward, manage and retain your clinical workforce.

Clinician Nexus provides a platform that enables health systems to build a high-quality clinical workforce through transparency and insight into productivity, clinical practice management, and clinical learning.
