

STUDENT MANAGEMENT

Real-Time Student Tracking

Provide greater visibility for all stakeholders: Identify students, faculty, and preceptors on premise across health care organizations – detailed down to the floor/unit level

The rotation dashboard, details, and calendar provide real-time visibility into student schedules and assignments to help ensure efficient coordination and greater transparency for all users. Shared views, reports, and filters enhance communication during audits and emergent situations such as nursing strikes or weather emergencies.

Key Features and Benefits

- **Dashboard view** Gain a real-time snapshot of all student placements and rotation assignments across your organization—helping you quickly assess status and coverage
- **Details view:** Dive deeper into individual student schedules, including specific assignments and exact locations within your organization for precise coordination and planning
- **Calendar view:** Easily visualize all scheduled students across your healthcare organization in a clear, at-a-glance calendar format—ideal for quick reference and planning
- **Shared views and reports:** share calendar views, reports, and saved filters across your organization to ensure all stakeholders have real-time visibility into student placements and rotations
- **Bulk notifications:** Quickly communicate major scheduling updates by sending bulk emails and notifications to affected students—streamlining coordination and reducing confusion.

Value for Stakeholders

- **Bulk communication** for emergent situations on site including nursing strike, grand rounds, community events, construction, weather, emergencies, and more
- Demonstrate compliance with regulatory requirements from governing bodies like the Joint Commission. **Instant access to students' data, files, and schedules**
- Provide verifiable documentation to help **streamline the audit process** and meet all necessary standards

Build, reward, manage and retain your clinical workforce.

Clinician Nexus provides a platform that enables health systems to build a high-quality clinical workforce through transparency and insight into productivity, clinical practice management, and clinical learning.
