

## STUDENT MANAGEMENT

# Automate and Streamline Student Onboarding

Streamline the onboarding journey—from application to scheduling—to enhance the student experience and boost operational efficiency.

Eliminate time-consuming manual tasks by automating key onboarding activities such as application review, clinical capacity assessment, and scheduling. Tools like the **Rotation Marketplace** and Document Library further reduce administrative burden by minimizing repetitive work, empowering rotation coordinators and administrators to focus on strategic initiatives and higher-impact responsibilities

### Key Features and Benefits

- **Post clinical learning opportunities** and set up applications to attract and engage students
- **Automate onboarding** across your entire organization for all student types and faculty
- **Enable students** to search for and find clinical opportunities that best meet their needs via our national **Rotation Marketplace**
- **Provide access to the Document Library** so students can reuse files for different rotations

### Value for Stakeholders

- **Improve capacity and resource management** with greater insight into scheduling and availability in real-time
- Standardize operations and automate outdated manual processes to **save time and improve efficiency**
- Ensure adherence to **corporate standards and regulatory compliance** through **accurate, timely documentation** of student activities and rotations.

### Build, reward, manage and retain your clinical workforce.

Clinician Nexus provides a platform that enables health systems to build a high-quality clinical workforce through transparency and insight into productivity, clinical practice management, and clinical learning.
