

STUDENT MANAGEMENT

Student Rotations

Transforming clinical rotations for academic institutions and health systems.

Every clinical learning experience is unique. There are multiple student types, academic organizations, and clinical disciplines – all of which require a different approach to ensure that your organization is set up for success. Managing these variations while supporting greater compliance, communication, and efficiency can be challenging...but we're here to help!

Make your work easier and more impactful with Student Management! Clinician Nexus simplifies rotation management by providing a centralized solution that streamlines these processes for academic institutions, health systems, and students alike.

Help is just around the corner:

- **Manage More Efficiently:** Handle diverse rotation types across departments with centralized oversight
- **Optimize Your Capacity:** Use data insights to balance rotation loads and identify underutilized resources
- **Onboard with Ease:** Automate credentialing and compliance checks to save time and reduce errors
- **Strengthen Your Pipeline:** Leverage pathway programs and preceptorships to build a strong future workforce

You'll see real results:

Time Savings: Automating day-to-day operational and administrative tasks allows coordinators to focus on more strategic priorities

Improved Compliance: Centralized tracking of student and faculty requirements help to reduce errors and ensure readiness for audits and accreditation

Stronger Partnerships: Enhanced communication tools and ability to collaborate strengthen relationships between academic institutions and health systems

Better Student Experiences: Real-time updates and more transparent onboarding, scheduling and evaluation processes build greater student confidence and set them up for success

Value for Stakeholders

- **Core Rotations and Clerkships:** Foundational and specialty training in internal medicine, surgery, pediatrics, and more for M3 and M4 students
- **Electives:** Specialized rotations for exploring niche areas or advanced specialties, paving the way for career decisions
- **Pathway Programs:** Tailored rotations for career tracks like rural health or primary care
- **Research Projects:** Opportunities for students to participate in clinical or academic research
- **Group Rotations:** Faculty-supervised nursing cohorts develop practical clinical skills in real-world settings such as medical-surgical nursing or pediatrics
- **Preceptorships:** Individualized mentorships help students transition from education to practice
- **Observations and Shadowing:** Passive learning experiences where students observe clinical workflows and patient care
